BOAT SKIP

The Boat Skip is used for the transportation and removal of general muck and waste materials on site.

The Boat Skip is designed with a bespoke lock-and-release syetem, eliminating the need for operating personnel and reducing the risk of someone entering the danger area while in use.

Safety tip: Do not overfill the skip by volume or weight, the load should be evenly placed.

Key Benefits:

- Benefits from a low loading height compared to a conventional muck skip
- A wide range of capacities are available from 200 to 4000 litres
- Comes with a net to cover the load

Specification:

SWL (kg)	Capacity (ltr)	Hanging Height (mm)	Width (mm)	Length (mm)	Weight kg)
400	200	500	920	1480	75
1000	500	550	1345	1975	125
2000	1000	650	1570	2210	210
3000	1500	950	1600	2255	280
4000	2000	950	1820	2735	545
6000	4000	1000	2020	3270	765
8000	4000	1200	2020	3270	870
