Supporting Radio Equipment:

Base Repeater

Combining the best of two-way radio with digital technology, the Base Repeater delivers increased capacity, exceptional voice quality, enhanced battery performance and integrated data communication. Recommended for congested, busy and high radio volume sites.

Voice Recording

Health and safety is paramount in the construction sector and in the event of an accident it is beneficial for key personnel and health and safety professionals to be able to review the events. WOLFF Onsite's voice recording solution has been designed to allow all radio traffic between cranes, CRASH, and ground workers to be recorded.
