

The Warrior 550kg Manual Counterbalanced Crane with 360 degree slewing jib is a mobile free standing workshop crane which has the ability to safely slew its jib through 360 degrees. The built in ballast weight which counterbalances the crane jib is mounted on a precision engineered slewing ring which allows maximum accessibility. Its has a manually adjustable four position jib which allows amazing flexibility of load handling.

Counterbalanced floor cranes with a high capacity slewing jib are the perfect solution for those industries that choose not to invest in fixed structures in order to have the possibility to modify their layout without constraints. These are primarily useful in tooling environments

- Manual Counterbalanced Crane with slewing jib
- 550kg capacity
- 360 degree pivoting arm allowing operation at any position you require
- Light, double acting hand hydraulic pump unit
- Swivel hook & adjustable knob
- Block valve to prevent overloading
- Extremely easy to manoeuvre due to minimal foot print area
- Heavy duty design, tested 25% overload before delivery
- Floor level minimum hook height
- 5 variable capacity settings
- 5 position jib
- CE Marked
- No operating licence is required
- NOTE THIS CRANE IS SUPPLIED COMPLETE WITH COUNTERBALANCE UNLIKE OTHERS ON THE MARKET WHERE YOU NEED TO ADD YOUR OWN!!

Basic Dimensions

Tank Capacity:- 1 Litre

Outreach with standard jib:- Position 1:- 1900mm adjustable position at 550kg capacity with 977mm turning radius

2:- 2160mm adjustable position at 450kg capacity with 1267mm turning radius

3:- 2260mm adjustable position at 350kg capacity with 1560mm turning radius

4:- 2450mm adjustable position at 250kg capacity with 1850mm turning radius

5:- 2600mm adjustable position at 150kg capacity with 2140mm turning radius

Overall Size:- 1400 x 985 x 1600mm

Wheel Diameter:- 200mm

Balance Weight:- 250kg

Net Weight:- 612kg
