DCV500 Vertical lift drum clamp

Working load limit (WLL) 500 kg

The DCV500 drum clamp has been designed to lift and transport steel drums in the vertical position. One clamp can be used to lift drums with or without their lids by gripping the rim of the drum.

Its light weight and small overall design makes it ideal for picking up drums that sit tightly on pallets. The centre of gravity of the drum is below the lifting point during transportation.

Product group: I2

INFO

For use with steel drums only
