Hydraulic Bottle Jack.

- **Model: HV**

Features:

• Versatile jacks can be used vertically (not upside down) or at any angle to no more than 5° from vertical position.
• Machined and polished cylinder walls ensure straight lifts, preventing uneven wear.
• Heat treated adjustable extension screw with cleaned lift saddle prevents slippage.
• Bottle jacks with lifting capacity of over 12tons and over have carrying handle for convenient moving or positioning.
• Patented bypass mechanism protects hydraulic cylinder from over pumped.

Model	Capacity (kg)	Min. Height (mm)	Lift Height (mm)	Adjust Height (mm)	Operating Force of Handle (N)	Net Weight (kg)
HV2	2000	158	90	60	400	2.5
HV4	4000	195	125	60	400	3.7
HV6	6000	197	125	80	400	5.0
HV8	8000	200	125	70	400	6.5
HV10	10,000	217	125	70	400	7.5
HV12	12,000	227	135	80	400	9.5
HV16	16,000	242	145	70	400	11.6
HV20	20,000	245	145	70	400	12.5
HV32	32,000	285	180	---	400	23.0
HV50	50,000	300	180	---	400	34.0
