1000kg Overhang Lifter

C-Hook Overhang Lifter [1000kg]

The perfect partner for lifting glass, cladding and curtain walling, the C-Hook Overhang Lifter has been designed for lifting and installing materials underneath building soffits and overhangs.

Featuring a lifting capacity of up to 1000kg, the C-Hook Overhang Lifter is ideal for lifting at height and can manoeuvre loads below overhangs with a depth of up to 1440mm.

Fitted with a hook attachment, this overhang lifter is perfect for use with our range of glass vacuum lifters, making glass installation and replacement a seamless and safe task below soffits. This product can also be attached directly to cladding panels with lifting eyes.

Please note: (the weight of the vacuum lifter must be taken off the weight of the safe working load of the balancer).

Reference Code
VGL44

Technical Specifications

Safe working load	capacity:	1000kg
Weight of lifter	weight:	206kg
Depth of overhang	depth:	1440mm
Balance control	control:	uses load weight to balance
