Overhang Beams

Lightweight Overhang Lifter

C-Hook 750 [750kg]

The all new lightweight, aluminum C-Hook 750 is the ultimate solution for lifting and installing glass, cladding, and curtain walling beneath building soffits and overhangs.

With a lifting capacity of up to 750kg, this versatile lifter is designed for high-elevation operations, effortlessly maneuvering loads under overhangs up to 1400mm deep.

Equipped with a hook attachment, the C-Hook Overhang Lifter seamlessly integrates with our range of glass vacuum lifters, ensuring safe and efficient glass installation and replacement beneath soffits. Additionally, it can be directly attached to cladding panels featuring lifting eyes.

Please note: The weight of the vacuum lifter must be deducted from the balancer's safe working load.

Reference Code

VGL77

Technical Specifications

Safe working load	capacity:	750kg
Weight of lifter	weight:	85kg
Max depth of overhang	depth:	1400mm
Balance control	control:	uses load weight to balance
