14PC 3.7V LITHIUM-ION QUICK SELECT CORDLESS SCREWDRIVER

MODEL NO: **CP36MS.V2**

Thank you for purchasing a Sealey product. Manufactured to a high standard, this product will, if used according to these instructions, and properly maintained, give you years of trouble free performance.

IMPORTANT: PLEASE READ THESE INSTRUCTIONS CAREFULLY. NOTE THE SAFE OPERATIONAL REQUIREMENTS, WARNINGS & CAUTIONS. USE THE PRODUCT CORRECTLY AND WITH CARE FOR THE PURPOSE FOR WHICH IT IS INTENDED. FAILURE TO DO SO MAY CAUSE DAMAGE AND/OR PERSONAL INJURY AND WILL INVALIDATE THE WARRANTY. KEEP THESE INSTRUCTIONS SAFE FOR FUTURE USE.

Refer to instructions | Wear eye protection

1. SAFETY

1.1. GENERAL SAFETY

- ✓ Maintain the screwdriver in good condition. Check moving parts alignment on a regular basis
- ✓ Keep the screwdriver clean for best and safest performance.
- ✓ Remove ill fitting clothing. Remove ties, watches, rings and other loose jewellery and contain long hair.
- ✓ Secure loose workpieces with a clamp, vice or other adequate holding device.
- ✓ Avoid unintentional starting.
- ✓ Wear approved safety eye protection.
- ✓ Maintain correct balance and footing. Ensure the floor is not slippery and wear non-slip shoes.
- ✓ Keep children and unauthorised persons away from the working area.
- × **DO NOT** allow children to operate the screwdriver.
- × **DO NOT** hold unsecured workpiece in your hand.
- × **DO NOT** carry the screwdriver with your finger on the trigger.
- × **DO NOT** use the screwdriver for a task it is not designed for.
- × **DO NOT** operate the screwdriver when you are tired or under the influence of alcohol, drugs or intoxicating medication.
- × **DO NOT** get the screwdriver wet or use in damp or wet locations.
- ✓ Keep screwdriver in a safe, dry, child proof area where the temperature will not exceed 104°F (40°C).
- ✓ **BATTERY SAFETY**
- ❑ **WARNING!** To reduce the risk of burns or fire:
- × **DO NOT** attempt to open, dismantle, modify or service the battery pack.
- × **DO NOT** crush, puncture, short external contacts or dispose of in fire or water.
- × **DO NOT** expose to temperatures above 60°C (140°).

2. INTRODUCTION

Compact, lightweight and comfortable to use. Quick bit selection combined with six bit magazine storage system means choosing the right bit couldn't be easier. Forward, reverse and trigger-lock with soft grip handle. Features LED work light and three colour battery indicator. Supplied with 12 bits in two magazines and pin charging cable.

3. SPECIFICATION

Model No.:.....CP36MS.V2
Battery: .....3.7V 1.3Ah Li-ion
Charging time:.....3-5hr
No-Load Speed.....230rpm
Max. Torque: 4.5Nm
Contents: ....Screwdriver Bits; Slotted - 3, 4, 5mm,
Philips - #1, #2, #3, Pozi - #1, #2, #3, TRX-Star* - T10, T15, T20
Noise Power/Pressure: .....67/59 dB(A)
Vibration/Uncertainty:.....≤2.5/1.5m/s²

fig.1

4. OPERATION

4.1. CHARGING

4.1.1. Plug the charge lead into the micro pin port (fig.1).
4.1.2. Connect the charge lead into a suitable power supply.
4.1.3. When charging commences, the charge indicator will light.
4.1.4. As the charge builds, the LEDs will light in sequence until the green shows, denoting a full charge. The amber LED represents mid-charge.
4.1.5. When fully charged, remove the charger lead from the screwdriver and the power outlet.

4.2. CHARGE LEVEL

4.2.1. When the tool is operated, the display shows the charge level: full charge is shown by all three LEDs being lit. The number of lit LEDs reduces with the charge level. When just the red shows, the tool requires recharging as in section 4.1.

© Jack Sealey Limited

4.3. OPERATION

4.3.1. Pressing the trigger (fig.1) will actuate the screwdriver. Sliding the forward /reverse selector will change the direction of rotation.

4.3.2. Pressing the trigger will also switch the LED worklight on.

4.4. CHANGING BITS

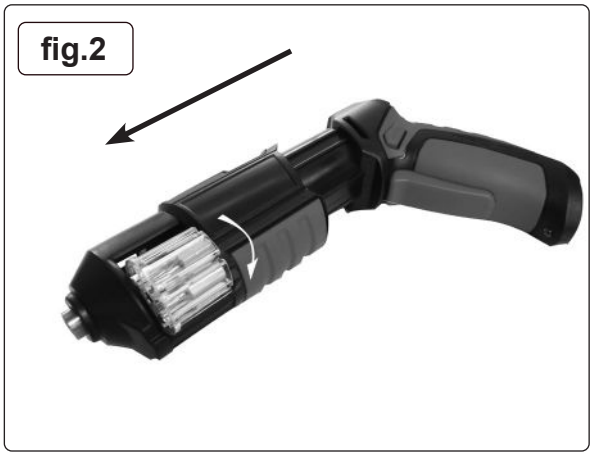

4.4.1. The CP36MS is supplied with two magazines containing screwdriver bits. To change a bit which is contained in the fitted magazine, pull the magazine carrier forward (fig.2) and rotate the magazine until the required bit is at the top. The bit to be loaded may be viewed through the magazine viewer.

4.4.2. To load the chosen bit, pull the magazine carrier back toward the handle.

4.4.3. To change the magazine, pull the magazine carrier forward and push the magazine to the left until it hangs below the screwdriver then pull the magazine forward until released from the spindle (fig.3).

4.4.4. Place the alternative magazine on the spindle and swing it back into the magazine carrier.

4.4.5. Push the magazine carrier back as in 4.4.2.

❑ WARNING! – Risk of Hand Arm Vibration Injury.

This tool may cause Hand Arm Vibration Syndrome if its use is not managed adequately.

This tool is subject to the vibration testing section of the Machinery Directive 2006/42/EC.

This tool is to be operated in accordance with these instructions.

Measured vibration emission value (a): ≤ 2.5m/s²

Uncertainty value (k): 1.5m/s²

Please note that the application of the tool to a sole specialist task may produce a different average vibration emission. We recommend that a specific evaluation of the vibration emission is conducted prior to commencing with a specialist task.

A health and safety assessment by the user (or employer) will need to be carried out to determine the suitable duration of use for each tool.

NB: Stated Vibration Emission values are type-test values and are intended to be typical.

Whilst in use, the actual value will vary considerably from and depend on many factors.

Such factors include; the operator, the task and the inserted tool or consumable.

NB: ensure that the length of leader hoses is sufficient to allow unrestricted use, as this also helps to reduce vibration.

The state of maintenance of the tool itself is also an important factor, a poorly maintained tool will also increase the risk of Hand Arm Vibration Syndrome.

Health surveillance.

We recommend a programme of health surveillance to detect early symptoms of vibration injury so that management procedures can be modified accordingly.

Personal protective equipment.

We are not aware of any personal protective equipment (PPE) that provides protection against vibration injury that may result from the uncontrolled use of this tool. We recommend a sufficient supply of clothing (including gloves) to enable the operator to remain warm and dry and maintain good blood circulation in fingers etc. Please note that the most effective protection is prevention, please refer to the Correct Use and Maintenance section in these instructions. Guidance relating to the management of hand arm vibration can be found on the HSC website

www.hse.gov.uk - Hand-Arm Vibration at Work.

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

REGISTER YOUR PURCHASE HERE

WEEE REGULATIONS

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

BATTERY REMOVAL

Li-ion

Under the Waste Batteries and Accumulators Regulations 2009, Jack Sealey Ltd are required to inform potential purchasers of products containing batteries (as defined within these regulations), that they are registered with Valpak's registered compliance scheme. Jack Sealey Ltd's Batteries Producer Registration Number (BPRN) is BPRN00705.

Note: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice. Please note that other versions of this product are available. If you require documentation for alternative versions, please email or call our technical team on technical@sealey.co.uk or 01284 757505.
Important: No Liability is accepted for incorrect use of this product.
Warranty: Guarantee is 12 months from purchase date, proof of which is required for any claim.
