Overhang Beams

Our 800kg Capacity Ov

Libro 800 [800kg]

The Libro 800 is a compact overhang beam, which is able to lift loads up to 800kg. This counterweight balancer is capable of installing glass, curtain walling and cladding below overhangs of up to 1550mm and can lift loads at full capacity at each working length.

The Libro 800 overhang beam features an integrated hook and can be used with a below-the-hook vacuum lifter, which are also offered for hire or sale from the WOLFF Onsite team.

This compact overhang beam can be attached to both mobile or tower crane and is suitable for installation projects at height. The Libro 800 features an anti-tilt switch, which stops the counterweight balancer tilting past ±10° for safety.

Key Features

- **800kg capacity**
- **Hook attachment**
- **810kg weight with counterweights, 210kg with counterweights removed**
- **Cable remote control for counterweight saddle**
- **24V DC battery with separate 110/240V charger**
- **±10° Anti-Tilt Switch**

Reference Code

VOB800

Technical Specifications

Safe working load	capacity:	800kg
Weight of libro	weight:	810kg (with counterweights) 210kg (without counterweights)
Depth of overhang	depth:	1550mm
Balance control	control:	rack and pinion counterweight saddle
Power requirements	power:	24V DC rechargeable battery 110/240v battery charger
Standard accessories	standard:	cable remote control to operate counterweight saddle
Optional accessories	optional:	radio remote control

use of below-the-hook vacuum lifters depend on type of project. Below the hook lifter not included.
