Wear eye protection

## 1. SAFETY

- ❑ **WARNING!** Risk of fire/explosion. **DO NOT** use the device in flammable or explosive environments.
- ❑ **WARNING!** Risk of electric shock. **DO NOT** use in the rain, wet or humid conditions.
- ✓ This device is to be used by professional and trained qualified personnel only.
- ✓ Always work in a tidy, light and ventilated environment.
- ✓ Always follow the instructions of the car manufacturer if using this device to repair components.
- × **DO NOT** use this device for any other purpose except that which it is designed for.
- × **DO NOT** use the device if it is damaged.
- × **DO NOT** disassemble or attempt to repair. Only qualified and authorised technicians are to replace the internal parts of this device. **NOTE:** The company is not responsible for use after disassembling the shell.
- ✓ Always use the provided USB charging cable.
- ✓ The user must be in a fit state to operate the device.
- ✓ Keep the device out of the reach of children to prevent injury.
- ✓ Only use staples that are designed for this device. The staples of this device are made of special materials, not ordinary iron wire. When the staples are used up, please contact the supplier, otherwise the malfunction caused by the misuse of staples of other materials will not be covered by the warranty.
- ✓ Store the device in a cool, dry location away from direct sunlight.
- ✓ Wear suitable PPE for the task at hand.
- ✓ Wear gloves in operation to prevent burns.
- ✓ Wear protective glasses to protect eyes during sanding operation.
- × **DO NOT** drop or strike the device.
- × **DO NOT** use this device for pipeline products that require waterproofing or sealing for the conveyance of liquids or gases. If the device is exposed to water or malfunctions, **DO NOT** continue to use it or attempt to repair it.
- ✓ Cleaning and user maintenance shall not be made by children without supervision.
- ✓ Release the trigger immediately to stop heating once the heating staple turns red in the operation.
- ❑ **WARNING!** Handle with care. The staples and device will still be hot and require time to cool.

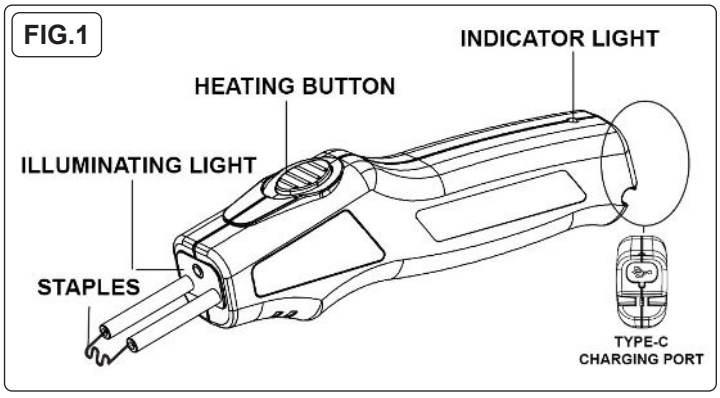

## 2. INTRODUCTION

Lightweight and cordless rechargeable hot stapler. Inbuilt LED to illuminate working area in low light areas such as engine bays. Heats up to a maximum temperature of 500°C. Supplied in storage case with a foam insert.

## 4. OPERATION

**REFER TO FIG.1**

### 4.1. CHARGING THE DEVICE

The LED indicator light will illuminate red when the device needs charging. Plug the supplied USB cable into the Type-C charging port. The LED indicator light will flash red when charging, and green when fully charged.

### 4.2. SELECT STAPLES

Select the appropriate staple as per the table below:

| TYPE OF STAPLE | | PURPOSE |
|---|---|---|
|  | 0.6 mm Outside corner staples | Repairing outside corners. |
|  | 0.8 mm Inside corner staples | Repairing inside plastic corners. |

4.3. Insert the staple as shown in fig.1
4.4. Align the staple with the crack to be repaired.
4.5. Press the heating button. The staple will heat up and melt into the plastic within a few seconds.
4.6. Twist the handle of the stapler so the transverse part of the staple is covered. Wrap it with melted plastic to strengthen the connection.
4.7. Release the heating button and allow it to cool.
4.8. Pull the device away from the staple.
4.9. Cut off the exposed part of the staple, or move it back and forth by hand until it breaks.

| LED INDICATOR LIGHT | | |
|---|---|---|
| 1 | Normal Working | Green light on |
| 2 | Protection | Red light flashes |
| 3 | Low Battery | Red light on |
| 4 | Charging | Red light flashes |
| 5 | Fully Charged | Green light on |

## 5. MAINTENANCE

× **DO NOT** use the device if it is damaged.
× **DO NOT** disassemble or attempt to repair. Only qualified and authorised technicians are to replace the internal parts of this device.
✓ Store the device in a cool, dry location away from direct sunlight.
✓ Fully charge the battery every three months to maintain battery performance/health.
✓ Only charge the device using the provided USB cable.
✓ Clean with a damp cloth. **DO NOT** use chemicals or abrasives.

**ENVIRONMENT PROTECTION**
Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.
