DRUM HANDLING

Drum Lifting Tongs - Semi Automatic

Semi automatic drum tongs lift a 210 litre drum vertically from a crane hook or forklift hook. They grip the drum securely under its top rim, so drums can be lifted out of tight spaces, onto racks or into containers where there is no room for a fork-mounted grab.

- ✓ Vertical lifting of 210 litre drums
- ✓ Grips under the top rim
- ✓ Grip tightens as the load is lifted

PART NO. WOS-FA-1033

KEY FEATURES

- Standard, heavy duty and Mauser versions
- Use on a crane hook or forklift hook
- High-gloss yellow finish
