SPREADER BEAMS

Forklift Battery Changing Beam - Conventional

The battery changing beam lifts a forklift traction battery out of the truck and back in safely. It slides onto the forks of another truck and clamps on with T-screws; fork and crane versions can also hang from an overhead crane. Part of our spreader beams range.

- ✓ 1,000 or 2,000 kg capacity
- ✓ Fork mounted, or fork and crane versions
- ✓ T-screw clamps

PART NO. WOS-FA-1121

KEY FEATURES

- Made to suit your battery
