FORK MOUNTED SKIPS

Forklift Tipping Skip - Raised Mesh Sides

The raised mesh sided forklift tipping skip adds 500 mm high mesh extensions to three sides of a 3 mm roll-forward skip. It is made for waste that is bulky but light, such as cardboard, paper, film and packaging, where a standard skip fills up long before it gets heavy.

- ✓ 500 mm mesh extensions on three sides
- ✓ Much more volume for light waste
- ✓ 3 mm steel body on a heavy duty underframe

PART NO. WOS-FA-1008

KEY FEATURES

- Open front for clean tipping
- Twin locking mechanism and fork security chains
- Pre-drilled for castors
