FORKLIFT ATTACHMENTS

Four Fork Attachment - Wide Load Stabiliser

The four fork forklift attachment adds two outer forks on a rigid cross beam, so extra-wide pallets and long products such as pipe, steel flats, extrusions and timber are supported at four points instead of two. Loads are more stable and less likely to be damaged.

- ✓ Four support points for long and wide loads
- ✓ Widths up to 5,000 mm
- ✓ Capacities from 1,000 kg to 4,000 kg

PART NO. WOS-FA-1135
