SITE TROLLEYS & CARTS

GoodsMan Powered Sack Truck

GoodsMan powered sack trucks are battery-driven, UK-made sack trucks that take the strain out of moving heavy goods over long distances, slopes, grass and gravel. A throttle handle gives variable forward and reverse drive, so the operator guides the load rather than pushing it. Part of our site trolleys range.

- ✓ Battery powered with variable forward and reverse
- ✓ Throttle handle control
- ✓ Up to 500 kg depending on version

PART NO. WOS-FA-1143

KEY FEATURES

- Handles grass, gravel and slopes
- Battery power meter
- About 2 to 3 miles of continuous use per charge
- Six versions for different loads
- UK manufactured and patented
