DRUM GRABS

Rim Grip Drum Handler

The rim grip drum handler uses hardened steel "parrot beak" jaws that grip the drum by its top lip. Because it grips from above, drums packed tightly together can be picked up and set down with no gaps between them, ideal for stuffing and unstuffing containers.

- ✓ Grips the drum rim with parrot beak jaws
- ✓ Handles tightly packed drums
- ✓ 210 litre steel and L/XL plastic drums

PART NO. WOS-FA-1045

KEY FEATURES

- Single 750 kg or twin 1,500 kg
- Rubber-lined crutch support protects thin-walled drums
- Fully automatic
- Zinc-plated screw clamps
