CF020 | 2 TONNE
MANUAL CHAIN HOIST

RED ROOSTER LIFTING

RAISING EXPECTATIONS

The CF020 is a 2 tonne extremely robust manual chain hoist from KITO.

With a weight of just up to 28 kg KITO's CF model is ideal for its ease of handling and portability. The KITO CF is unique with its single reduction gearing that results in lifting speeds up to 28% faster than typical manual chain hoists. Moreover it is built with double pawl springs, and heavy duty heat-treated pinion and gears. The gear shafts with ball bearings minimize friction to guarantee ease of operation.

Like all KITO chain hoists, the CF comes standard with highly corrosion resistant KITO brand grade 100 load chain. The chain is nickel plated and has an ultra-smooth surface that results in reduced link-to-link wear, and increased lifetime.

STANDARD FEATURES

- Lightweight aluminium body
- Precise gear mechanism
- Long lasting sealed bearings
- Nickel-plated load chain grade V (G100)
- Made in Japan
