Purelite Xstream

Powered Air Purifying Respirator

PureFlo™

Data Sheet

The Purelite Xstream is an innovative respiratory protective system that provides a unique all-in-one respiratory, eye, face and hearing protection solution.

The Purelite Xstream provides integrated protection for users with an unrivalled level of comfort.

- System Classification TH2P (APF 20)
- Self-contained, no trailing leads or hose
- High stability & quick release headband
- High airflow – 210 L/m
- Very low running costs
- Low flow warning at 150 L/m
- 8-hour battery

Integrated Eye, Face & Respiratory Protection

- Low noise fan motor provides initial rate airflow of 210 l/m (150 l/m minimum at end of battery life). Low battery audible alarm.
- Lightweight 1.0kg (nominal) with easily adjusted headband to fit range of head sizes and for wear over protective clothing and hoods.
- Polycarbonate faceshield with nylon elasticated faceseal, clear overlays are available for the faceshield.
- On-off switch easily operated with gloved hand.
- High efficiency filter with Assigned Protection Factor (APF) of 20.
- Air flow indicator pre-checks battery and filter performance and condition.
- Wide range of applications including: woodworking & pottery, DIY and building maintenance, food preparation and processing, fitting of insulation materials such as Rockwool®, dental laboratories, horticulture and pest control.
- Equivalent to FFP3 mask.
- Hearing protection can be fitted.

APPROVALS

Respiratory Protection	BS EN 12941:1999 Protection Level TH2P
Eye/Face Protection	EN 166:2002 Optical Class 1, medium energy impact and protection against liquid droplets and splashes.
